Sustain SoCal

Cleantech Company of the Year

2026

Sustain
Southern California

Introduction

As demonstrated by our founding as Cleantech OC sixteen years ago, **Sustain SoCal** has a longstanding history of supporting and rewarding cleantech innovators in the region. The **Cleantech Company of the Year Award** recognizes the outstanding products and services of clean/climate tech companies in Southern California.

The winner will be presented with the **2026 Cleantech Company of the Year Award** at Sustain SoCal's 17th Annual Energy Event on October 22nd, 2026.

Eligibility

Clean/climate tech companies who provide an environmentally-focused tech product or service may nominate themselves for consideration. Nominees for this award should have measurable impact and market traction.

Nominees must be willing to:

- ❒ Agree to share the measured impacts of their product, service, or technology with the Sustain SoCal ecosystem
- ❒ Be willing to share insights with our Sustain SoCal Sustainerator

Third-party nominations must be accompanied by a written authorization from the nominated party agreeing to be considered for the award.

Application

Directions: Please fill out the information below completely. All applications must be received by Friday, October 2nd at 11:59pm. All responses are reviewed by the Awards Committee unless otherwise noted. Only submissions completed in full are eligible. Supplemental documents are allowed, but it is at the discretion of the reviewers to review them. Confidential or proprietary processes, technologies, or business practices should be clearly identified.

Nominee Name:	
Address:	
Contact Name:	
Phone:	E-mail:
Are you a Sustain SoCal Member? If not, how did you hear about us and this award?	

Attach written responses addressing all topics listed below. Submissions that do not address every point within each section will be less competitive. These narratives are the most crucial aspect of the application and should shed light on why the nominee deserves this recognition.

I. About the Nominee (500 Words Max)
   a. Provide details on the technology that your company provides. What problem does it solve?
   b. What major obstacles, beyond financing needs, have you encountered in the process of sustaining a successful business?
   c. Is the company based in Orange County? If so, why? If not, explain why the company has chosen OC as a market.
   d. Who is the founder(s)? Please provide a staff roster. Biographical information does not count towards the word count.

II. Looking Forward (500 Words Max)
   a. How has this technology made a positive difference? Describe the impact on GHG accounting, cost savings, or community resiliency.
   b. What investments/partnerships has the company attracted since its founding? How does your business model demonstrate growth capacity?

III. Further Considerations (400 Words Max)
   a. What are other benefits or unique aspects of your tech product or service that do not fit into the above sections? What sets you apart from competitors?
   b. How has your company made a positive environmental difference compared to the current standards? Highlight cases where you have gone beyond the average calls of environmental protection.

About the Awarding Organization:

Sustain SoCal accelerates sustainability initiatives and cleantech economic growth through innovation, collaboration and education in Southern California.

The Fine Print

Confidential or proprietary processes, technologies, or business practices should be clearly identified in the application. Finalists may be visited for verification of activities. An organization must be in good standing with environmental laws and regulations to be eligible for an award. Awarded optionally, based on nominations received that meet award requirements.
